PROFILE

Second-year Computer Science undergraduate at Lipa City Colleges and DOST-SEI Scholar 2025.
Builds web and data-driven applications with PHP, MySQL, JavaScript, and Supabase.

PROJECTS

Student Early Warning System - PHP, MySQL

Built student registration, data intake, attendance tracking, and grade-based risk scoring. Calculates risk levels to produce a prioritized review list for early intervention.

HR System - PHP, MySQL

Developed an administration dashboard for employee records, departments, loans, payroll, reports, search, editing, and deletion. Centralizes records into searchable CRUD workflows.

Student Information System - JavaScript, Supabase

Built a browser form and connected student directory. Stores student records in the cloud and displays them from a connected database.

SKILLS

Languages: Python, JavaScript, PHP, HTML, CSS

Databases: SQL / MySQL, Supabase

Tools & Practice: Git, GitHub, responsive design, problem solving

EDUCATION

Bachelor of Science in Computer Science

Lipa City Colleges, College of Computing and Technology Engineering. Second-year undergraduate student.

Earlier Education

Lipa Montessori School of Learnings Inc. - STEM strand; Consistent Honor Student.
Graduated Salutatorian at Bulaklakan Elementary School.

LEADERSHIP

Vice President of Internal Affairs

Computing Development and Engineering Society - LCC

Former Roles

President and Vice President of Academics Club; SPG Vice President and Public Information Officer; Class Vice President and Class Secretary.

i-Leap Program - Torres Technology Center Corp.

Business Operations Simulation Champion; Best Booth Presentation and Prototype; Above and Beyond Award.

ACTIVITIES

Asian Math Sci League Inc. - Mathematics Enrichment Program, Top 1 student
MTAP-DepEd Math Challenge - Multiple awardee for seven years
